

Capability Statement

Independent advisory for complex projects,
investments and strategic decisions.

Clarity where disciplines, interests and decisions converge.

Vantiq Consulting is an independent advisory boutique for assignments that do not fit a standard playbook. We combine commercial judgment, project expertise and an international perspective, then assemble the specialist structure required for the specific mandate.

FIVE FIELDS OF ADVISORY

01

Construction & Project Advisory

Independent direction, assessment, procurement, project controls, recovery and owner-side delivery support.

02

Real Estate Advisory

Investment assessment, development decisions, due diligence, feasibility and asset strategy.

03

Investment & Development Advisory

Structured evaluation of opportunities, concepts, partners and international market entry.

04

Strategic Advisory

An experienced outside perspective for market, corporate and stakeholder decisions.

05

Special Situations

Focused support for urgent, confidential or distressed project and negotiation situations.

The mandate determines the team and the format.

MANDATE FORMATS

01

Independent Assessment

A focused review, due diligence or second opinion for a material decision.

02

Specialist Intervention

Selected senior expertise for a defined technical, commercial or project challenge.

03

Integrated Mandate Team

A tailored multidisciplinary team under central leadership by Vantiq.

VANTIQ EXPERT SELECTION STANDARD

01

Understand the mandate

02

Define required expertise

03

Identify specialists worldwide

04

Verify fit and independence

05

Secure confidentiality

06

Lead and assure quality

We do not fill capacity. We assemble the right expertise.

Focused markets with demanding decision environments.

01

Defence & Secure Industrial Projects

Sensitive facilities, capacity programmes and delivery settings with elevated security, governance and confidentiality requirements.

02

Project Recovery & Special Situations

Intervention when schedule, cost, contracts, governance or stakeholder alignment threaten the intended outcome.

03

Energy & Critical Infrastructure

Complex assets and programmes where resilience, investment logic and delivery performance must be considered together.

04

Real Estate, Hospitality & Investment

Independent assessment and development support across acquisition, development, repositioning and delivery.

Every market page is a starting point. Scope, expertise and governance are defined around the actual decision and risk situation.

Representative mandate situations without disclosure.

MANDATE 01

Stabilising a delayed industrial project

Independent fact base, root-cause analysis and a decision-ready recovery structure for schedule, interfaces and delivery responsibility.

MANDATE 02

Assessment before an investment decision

Challenge of scope, assumptions, cost exposure and delivery strategy to support proceed, revise or pause decisions.

MANDATE 03

Building an international expert structure

Selected local and international specialists coordinated within one decision and quality framework.

MANDATE 04

Confidential cost, schedule and contract intervention

Controlled information routes and practical options for decision, negotiation and stabilisation.

These profiles are anonymised and representative. They disclose no client names, project identifiers, transaction data or protected reference details.

Specialists may change. Accountability does not.

Vantiq remains the central point of responsibility for mandate structure, coordination and quality oversight. External specialists complement the mandate; they do not replace Vantiq's accountability.

- 01 Conflict checks before access
- 02 Mandate-specific NDA and information model
- 03 Clear reporting and decision routes
- 04 Ongoing quality oversight
- 05 Adaptive expert structure under Vantiq leadership

CONFIDENTIALITY & REFERENCES

We do not publish identifiable client or project references. Relevant experience and credentials may be discussed confidentially where contractually permissible.
